

Post 2423 is offering you an opportunity to serve – and it doesn't involve going to Cuba, Puerto Rico, the Philippines or China.

This is much easier than foreign service. Post 2423 is determined to increase income from rental of our newly remodeled hall. We have a nice schedule of events in August, September and October and we continue to promote the benefits of using the hall at our Post.

We need to have a team of "hall monitors" available to host functions and we're going to pay these Post Police.

Monitors will receive training prior to assignment and will be paid by the hour for their time. Details to follow. The position involves opening the building, answering questions, overseeing clean-up (if required) and securing the building. Training will be arranged to meet your schedule. We would like to have 4 to 5 monitors so the burden will be spread out.

Please consider this important service to our Post. The work is easy, the schedule is flexible and you will enjoy your time with our guests.

Visit the Post website to view the events currently scheduled at the Post. Log onto vfw2423.org
